To: LESLIE SNOW

EXECUTIVE DIRECTOR, CALFED

1416 9th St.

SACTO CA 95814

Dear Mr. Snow -

Please consider this letter a response to the revised Calfed Plan.

I oppose Calfed's plan to increase surface water storage in the Central Valley by raising existing dams or building new offstream storage reservoirs. Calfed's plan to raise Shasta dam would flood segments of the upper Sacramento & McCloud rivers. Calfed's proposed sites offstream storage reservoir would require massive water diversion from the Sacramento River.

I urge Calfed to expand water efficiency, conservation, and reclamation programs to stretch the existing water supplies, instead of

305

798(2)

building new dams & canals. This could be done
by switching to higher value & less water
consumption crops & by installing water meters
for all agricultural & urban users.

We cannot solve the ecological problems caused
by dams & diversions, by building more dams
& diversions.

Thank you for your time & consideration.
I look forward to hearing your position
on this issue.

Sincerely,

Don Anger
